

# Educational Advantage

The traditional corporate university or learning program is wrought with administration challenges, shallow educational offerings and yet, can easily skyrocket in price. Luckily, there's a solution that can minimize expenses, provide a large offering of quality continuing education course material, and create customized training and education courses for your rehabilitation staff quickly. CEU360.com provides a comprehensive learning solution for your education, compliance and training needs.

## The Library

- **Content** - Full access to our current library of accredited courses, and a minimum of 200 new hours developed annually.
- **Custom Content / White Label Content** – CEU360.com's expert content design team can work with you to create custom education, compliance and company training programs.

## Content Development

- **Rapid Content Development** - Technology has evolved, and so has our rigorous process of developing and delivering high quality, media-rich content. CEU360.com has the ability to create new content within a matter of days - not months or even weeks!
- **Compliance Training / Education** - With a constant influx of new regulations, codes, and compliance headaches, compliance training is imperative within the healthcare industry. Our course design experts will work with you to design a course to meet your needs.
- **Employee Training** - Developing effective internal training is crucial to ensuring the long-term success of your organization, but with traditional training methods, you get a fragmented, inconsistent, and complex development and delivery process. CEU360.com takes the pain out of creating customized training materials, and provides consistent delivery every time – so you're sure every member of your team receives the exact same message - every time.

## Content Delivery

- **Media-Rich Delivery** - Our media-rich content delivery system allows for demonstrative video, informational charts, graphs and diagrams, as well as visualization of the course presenter and top-quality audio. The combination of medias means that our courses meet the needs of all three learning types - visual, auditory, and kinesthetic.
- **Course Material** - Live and on-demand course options offer a rich engaging experience as well as options to meet the regulating bodies' requirements - in most cases even meeting the live or "face-to-face" needs of the therapist.
- **Content for Life** - Once completed, course participants will have access to their course materials for life, allowing them to review and refresh themselves on the course material. They can also pause, skip, replay, close and return to the course materials at any time during or after course completion.

## Tools & Support

- **Accreditation Management** – Our Learning Management System (LMS) provides full-service accreditation management to ensure your employees are completing approved continuing education opportunities.
- **Comprehension Management** – Our advanced LMS provides the ability to objectively measure learning objectives through completion of a graded exam.
- **Certificate Management** – Certificates are an integral part of providing continuing education opportunities. Our LMS provides automated certificate generation and storage for life.
- **Support** – Our knowledgeable help team is available 7 days per week, from 7am - 10pm CST to assist your students with anything! Our help team is trained on accreditation rules, regulations, requirements, and can assist with any technical issues.

## Accreditation

- **Dedicated Accreditation Team** – Each profession has their own set of rules and governing bodies, in some cases even 50 different accrediting bodies for a single profession. Our dedicated Accreditation Team's triple verification process ensures our continuing education courses are accredited through the appropriate regulating bodies - GUARANTEED!
- **Accreditation Management** - Participants only see courses approved by their specific regulating body, ensuring a personalized view and access only to the courses accessible to the therapist.
