

CEU360.com delivers continuing education, compliance training, and employee training using superior technology and an advanced learning management system. CEU360.com removes barriers to entry present with traditional corporate university programs such as, sky-high expenses, tedious administration processes, clunky, outdated access, and drawn out content creation. This is all made possible via our proprietary, industry leading Learning Management System and technologically advanced content creation and delivery processes.

Quality Content

- **Content Options** - Continuing Education, Compliance Training, and Employee Training together provide the foundation for the 360^o corporate learning solution.
- **Accreditation** – Continuing Education courses are accredited through the appropriate regulating bodies - ensuring your employees are completing approved continuing education opportunities - **GUARANTEED!**
- **Content Delivery** - Live and on-demand content options offer a rich engaging experience as well as options to meet many regulating bodies' requirements for interactive education.
- **Custom Content / White Label Content** – CEU360.com's expert content design team can work with you to create custom media-rich education, compliance and company training programs.
- **Out of the Box Continuing Education Library** - 2000+ hours of available continuing education and a rigorous annual course development schedule mean there's something for everyone!

Technology

- **Smart Streaming** - Whether you have the connectivity of an information super highway, or that of a country gravel road, our smart streaming technology delivers a rich experience - every time.
- **Rapid Content Creation** - CEU360.com's advanced technology and rigorous, well tested development processes allow for the creation of new courses in a matter of days, not weeks.
- **Course Options** - Our media-rich content delivery system means that our courses meet the needs of all three learning types - visual, auditory, and kinesthetic.

Learning Management System

- **Personalized** – Our Learning Management System (LMS) provides full-service accreditation management to ensure your employees are completing approved continuing education opportunities.
- **Comprehension Management** – Our advanced LMS provides the ability to objectively measure learning objectives through completion of a graded exam.
- **Certificate Management** – Certificates are an integral part of providing continuing education opportunities. Our LMS provides automated certificate generation and storage for any educational program.
- **Branded University** – Our design experts can quickly brand your custom content and your learning management portal to seamlessly integrate with your organization's look and feel.
- **Administration** – Our team will setup and manage your entire system – saving you time and hassle.
- **No IT** – With our cloud-based learning management solution, there's no need to involve IT – just log in to get started.
- **Utilization Tracking** - Customized tracking shows you critical utilization reports.
- **Available API** - Our available api makes integrating with other solutions a snap.

Pricing

- **Library Subscription** – Unlimited access to the course library, for far less than the typical CE reimbursement program.
- **No Startup Costs, No Maintenance Fees & No Capital Expense**

“Great course content. Exceptional customer service.”

- Gretchen Reeb, PT, Texas

“Videos were great to show demonstrate, learned more than I thought I could from an internet course.”

- Margaret Laird, PT, Texas
