

# Learning Management System **CEU360.com**<sup>TM</sup>

The CEU360.com learning solution includes our proprietary, technologically advanced Learning Management System (LMS). Designed by clinicians, for clinicians the CEU360.com LMS is easy to use and even easier to deploy. Capable of servicing the smallest of clinics, or the largest of organizational networks - no amount of content or utilization traffic is too big to administer.

## Administrative Tools

- **Administration** – Our team will setup and manage your entire system – saving you time and hassle.
- **Library Management** - Choose from the entire library of courses to create a personalized library to meet the needs of your organization / facility.
- **Utilization Tracking** - Customized utilization and tracking reports are provided quarterly – ensuring you are able to track usage and compliance on your terms.
- **Course Surveys** - Receive employee satisfaction surveys results to discern which courses are providing the most value to your team.
- **Branded University** – Our design experts can quickly brand your custom content and your system to seamlessly integrate with your organization’s look and feel.
- **No IT** – With our cloud-based learning management solution, there’s no need to involve IT – just log in to get started.
- **Unlimited Storage** - No matter how large your course library, storage remains free with your subscription.

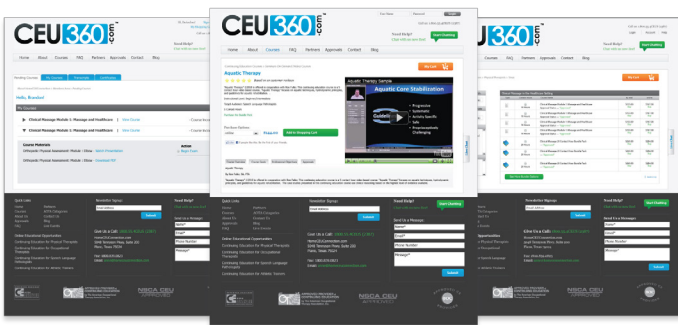

## Participant Tools

- **Accreditation Visualization** - Course Participants only have access to courses that are approved for their state and profession - ensuring the courses they take are accepted to meet their continuing education needs. **GUARANTEED.**
- **Content for Life** - Once completed, course participants will have access to their training materials for life, allowing them to review and refresh themselves whenever, wherever, and as often as they like.
- **Comprehension Management** – Our advanced LMS provides the ability to objectively measure learning objectives through completion of a graded exam.
- **Certificate Management** – Certificates are an integral part of providing continuing education opportunities. Our LMS provides automated custom certificate generation and unlimited storage - for life.
- **Transcript Management** - Audited? No worries! Available complete educational transcripts make reporting continuing education hours a breeze.

## Support

- **Support** – Our knowledgeable help team is available 7 days per week, from 7am - 10pm CST to assist participants with anything! Our help team is trained on accreditation rules, regulations, and requirements, and many other facets of continuing education and training.

**“Possibly the most convenient type of course to take, if I needed to I was able to repeat information as often as I needed to, stop and return to the course if I needed to and I will always have exactly what the instructor says on my computer. Love it.”**

- Justine Sperandio, PT, New Jersey
